## SUBLIMATED COLOUR OPTIONS

Unlimited colours\* to create infinite designs - sublimated colours are matched to Pantone Solid Coated; giving a wider range than the standard CMYK options to offer more creative freedom.

## EMBROIDERED LOGOS

---

Available across our Cut & Sew and leisurewear ranges

Logos should be supplied as a **DST** file along with a colour run using Madeira threads for the embroidered crest for an exact match.

If the logo is not set up in this format, we will require an image of the logo to set up the **DST** for you at a fee. Please explain clearly how you would like your crest to appear on both light and dark backgrounds, as well as size requirements (if there are any).

A visual of the colour run will be sent to you for approval before production can begin.

## HEAT TRANSFER LOGOS

---

Available across our Cut & Sew and leisurewear ranges.

Logos must be supplied as the following files to be able to be used for heat prints:

- **AI vectorised file (Adobe Illustrator)**
- **EPS vectorised file**

We will check over the file supplied to ensure it is suitable for heat transfer.

High resolution PDF files can also be used, however we will need to check the format prior to production.

For files containing text please provide the font, alternatively please outline the text for us to be a vectorised format.

Pantone colours should also be submitted, however if these are not available our design teams will colour match the logos as closely as possible to the artwork provided.

If you do not have the above, we will require an image of the logo to be created as a vectorised file suitable for heat printing, which will incur a fee.

## SUBLIMATED LOGOS

---

Available across all our Sublimated products.

Logos must be supplied as the following files to be able to be used for sublimation:

- **AI vectorised file (Adobe Illustrator)**
- **EPS vectorised file**

We will check over the file supplied to ensure it is suitable for sublimation.

High resolution PDF files can also be used, however we will need to check the format prior to production. For files containing text please provide the font, alternatively please outline the text for us to be a vectorised format.

Pantone colours should also be submitted, however if these are not available our design teams will colour match the logos as closely as possible to the artwork provided.

If you do not have the above, we will require an image of the logo to be created as a vectorised file suitable for sublimation, which will incur a fee.

## TEAMWEAR FABRICS

### KOHINO 4DX

92% Polyester & 8% Elastane  
290gsm

Our top of the range fabric has been specifically developed for teams playing at the highest level of the game.

### IKOMA

100% Polyester  
200 or 220gsm

A medium-weight eyelet textured knit in a durable polyester yarn, treated with our moisture management system.

### ELITEX

95% Polyester & 5% Elastane  
280gsm

This fabric has a soft and light feel, along with excellent wicking and breathable features. Suited for multisport match play and leisurewear.

### DIAMOND POLY

100% Polyester  
175gsm

The ideal choice for training & leisurewear usage. This fabric has a textured sports finish, with moisture management system & a box fresh antibacterial finish.

### POLYESTER DRILL

100% Polyester  
155gsm

This durable, lightweight fabric is used for our Premier Match Rugby Shorts. Functional for match play uses. Soft lightweight and comfortable.

### SMOOTH INTERLOCK

100% Polyester  
140gsm

It's lightweight easy care and sports finish properties make this smooth faced fabric popular across multisport and leisurewear.

### KUSARO PRO

85% Polyester & 15% Elastane  
200gsm

This fabric has been specifically designed for use in places with high heat and/or humidity. As a high stretch fabric its ideal for tight fitting garments.

### TASLON POLYESTER

100% Polyester  
110gsm

A modern, high-tech, woven fabric. Strong and durable; ideal for multisport use.

### WAFFLE KNIT

100% Polyester  
140gsm

This lightweight micro-mesh fit has a beautifully soft and light feel. With a Quick drying feature built into the fabric.

### MATT POLY FLEECE

100% Polyester  
280gsm

A smooth knit face with a cosy brushed fleece backing, perfectly provides thermal warmth and comfort. Our iconic Matt Poly Fleece offers great durability with comfort and warmth.

### COTTON

100% Cotton  
185 or 220gsm

A traditional cotton rich textured fabric for leisure or multi-sport use.

### SMOOTH WOVEN

100% Polyester  
120gsm

A Hard wearing fabric that is fully waterproof (with taped seams) with a semi breathable membrane. Soft and smooth to the touch with a semi-matt finish.

### PU COATED POLYESTER

100% Polyester  
140gsm

Used for our outerwear products, this two-layer construction offers a waterproof and breathable function, with a subtle weave to face.

### BRUSHED FLEECE

65% Polyester / 35% Cotton  
330gsm

A traditional fleece fabric offering a high level of warmth and quality.

### MICROLIGHT RIPSTOP

100% Polyester  
130gsm

A fashionable multi-use lightweight fabric popular for leisurewear use, which is both durable, hard-wearing.

### TASLAN NYLON

100% Nylon  
180gsm

A modern, high-tech, woven fabric. Strong and durable; ideal for multisport use.

### LIGHTWEIGHT MATT POLY FLEECE

100% Nylon  
200gsm

Our iconic Matt Poly Fleece remastered; creating a lightweight version ideal for training and leisure.

### BONDED SOFT SHELL WITH A PU MEMBRANE

Face: 93% Polyester/ 7% Elastane  
Back: 100% Polyester fleece  
230gsm

The unique 3-layer structure gives this fabric a smooth face with a water repellent and breathable membrane.

## CORE STOCK FABRICS

### MICROLIGHT RIPSTOP

100% Polyester  
130gsm

A fashionable multi-use lightweight fabric popular for leisurewear use, which is both durable, hard-wearing.
